**DRAFT for REVIEW and COMMENT**

introduction

mack5 was requested to carry out a Conceptual Design Cost Plan for the proposed Atherton Civic Center located in Atherton, CA.

The first part of the Report contains the basis of the report, the assumptions made, description of the project scope, the exclusions to the costs and a risk register which contain items that have potential to impact cost at some point in the future.

The Overall Summary section contains a Summary of Gross Floor Areas, an Overall Project Summary, and Component and Trade Cost Summaries with Graphs.

Each section contains Control Quantities, a Cost Summary and Graph, and a Detailed Breakdown of Costs.

### project introduction

The Town of Atherton intends to build a new Civic Center on the existing 5 acre Civic Center Site. The old building date from 1920s and include several temporary trailer offices. Many buildings are near, or at the end of their useful life. The Site itself is under utilized and split apart by several roads.

This project includes a new library, a new Police Station/City Hall that will contain Council chambers, City Administration Offices and Community Development Offices. The project also includes interior renovation of existing Town Hall to accommodate an expanded heritage room, new ADA toilets, a small cafe, and a large flexible reading/meeting room that opens out to the library front porch. The existing Corporate yard and Train depot will remain largely intact.

### items used for cost estimate

architectural	CCAC Plans + Site Diagrams prepared by WRNS dated September 1, 2015 ACC Program prepared by WRNS dated August 27, 2015 Programming + Concept Design Summary prepared by WRNS Studio dated August 31, 2015
structural	Structural Narrative prepared by Mar Structural Design dated September 1, 2015
electrical	Electrical Basis of Design Narrative prepared by Integral Group dated August 19, 2015

### assumptions

- (a) Construction will start in December, 2016
- (b) A construction period of 18 months
- (c) The general contract will be competitively bid by a minimum of five (5) qualified contractors
- (d) The general contractor will have full access to the site during normal business hours
- (e) There are no phasing requirements
- (f) The contractor will be required to pay prevailing wages

## inclusions

**Police/City Hall and Library**

foundations	This section includes reinforced concrete spread footings, elevator pit, slab on grade, perforated drain pipe, perimeter concrete curb/stemwall and allowance for mechanical pads.
superstructure	This section includes structural steel framing, metal deck with concrete fill, bare roof deck and miscellaneous metal and rough carpentry.
enclosure	This section includes exterior wall finishes, exterior storefront/curtainwall system, exterior windows, mechanical roof screen, parapet wall, and misc band and trims.
roofing	This section includes built-up roof system and additional premium for clay tile, green roof, roof garden terrace and skylights. It also includes roof flashing, gutter, downspouts, allowance for mechanical roof pad, roof hatches, caulking and sealants.
interior construction	This section includes interior partitions, glazed wall and sidelights, interior balustrades and guardrails, interior doors, protective bumpers, toilet partitions and accessories, shelving and millwork, casework and countertops, chalkboards and signages.
stairs	This section includes exit/egress stairs complete with finishes, handrail and guardrail.
interior finishes	This section includes floor, wall and ceiling finishes.
conveying	This section includes hydraulic elevator at Police/City Hall Building.
plumbing	This section includes plumbing fixtures, domestic water distribution, sanitary waste piping, storm water piping, natural gas piping and miscellaneous trade specialties.
heating, ventilation, and air-conditioning	This section includes mechanical equipments, piping, ductwork and miscellaneous trade specialties.
fire protection	This section includes automatic wet-pipe sprinkler system

**inclusions**

electrical This section includes main service and distribution, emergency power, photovoltaic roof mounted system, equipment power, user convenience power, lighting & lighting control, telecomm, fire alarm, security, audio/visual rough-in and miscellaneous trade specialties.

equipment This section includes kitchen and breakroom equipment, and allowance for fitness room equipments.

furnishings This section includes window shades, projection screens, entrance mats, fire extinguisher cabinets, bike storage, benches and lockers.

**Site Improvement**

site preparation This section includes demolition of existing buildings and removal of existing hardscape surrounding the buildings. It also includes site protective construction, earthwork and erosion control

site improvement This section includes vehicular and pedestrian paving, site structures, landscaping and miscellaneous site furnishing.

site mechanical utilities This section includes allowance for site drainage

site electrical utilities This section includes site lighting and site communications and security, and allowance for site demolition and relocation

**exclusions**

- (a) Cost escalation beyond a midpoint of August, 2017
- (b) Existing corporation shed and train depot to remain in place
- (c) Relocation of displaced management and staff
- (d) Loose furniture and equipment except as specifically identified
- (e) Hazardous materials handling, disposal and abatement

**exclusions**

- (f) Compression of schedule, premium or shift work, and restrictions on the contractor's working hours
- (g) Soft Cost such as testing and inspection fees, architectural design and construction management fees, assessments, taxes, finance, legal and development charges
- (h) Scope change and post contract contingencies
- (i) Environmental impact mitigation

**risk register**

- (a) The Bay Area construction market continues to have more demand than supply. Consequentially, escalation is running very high, and bid day result can be very poor. Consequentially, the Owner should take measures to accommodate these conditions through Deductive Alternates, more funding, etc.
